

## WhiteBoard

### **Git Bash into the correct directory**

Run this after every command to see what has changed and what hasn't

```
git status
```

### **Pull New Exercise Code / Solution Code**

```
git pull upstream master
```

### **Push Exercise Code**

```
git add -A
```

```
git commit -m "My commit message"
```

```
git push origin master
```

<shift> Insert – will paste text into Bash command line

Socrative Quiz – every day. Socrative.com, student login, Room ID – NLRGREEN

### **Eclipse shortcuts –**

Alt up arrow – moves a line or multiple lines up (down arrow moves them down)

Ctrl – shift- f – formats your code

Ctrl s – saves your code

Fn f11 – runs your code

When the intellisense has windows open, use the up and down arrows to move to the one you want to select.
